Issued to

Sunspport Management Pty Ltd T/A WBV Whole Body Vibration

for approval to supply

**Sunspport Management Pty Ltd T/A WBV Whole Body Vibration -
Vertical vibration exerciser, stationary**

ARTG Identifier	212167
ARTG Start date	11/07/2013
Product Category	Medical Device Included Class IIa
GMDN	58270
GMDN Term	Vertical vibration exerciser, stationary
Intended Purpose	<p>The WBV-3000 applies the theory of whole body vibration to stimulate the neuromuscular system to improve muscle strength, joint proprioception, bone density, muscle length and blood circulation. Functional benefits include improved gait; better balance to reduce the risk of falls; improved coordination, flexibility and power for everyday activities or sport; and reduced pain.</p> <p>The WBV-3000 has a vibrating platform that oscillates side to side. This produces an even, low impact movement which alternates the rise and fall of each side of the platform, producing a gentle tilting movement on each side of the body. This motion is similar to the action of raising one leg as the other lowers during walking. The tilting action of the platform is delivered by an electric motor integrated within the device base. The frequency and amplitude of the vibration can be altered depending on the intended outcome. The higher the amplitude the more the muscles, tendons, joints and nervous system must respond to the mechanical movement of the platform.</p> <p>The WBV-3000 can be used in healthcare facilities such as physiotherapy and occupational therapy clinics and sports facilities. It has clinical application in rehabilitation programs and treatment plans for medical conditions and injuries affecting muscles, bones and joints.</p>

OTO Bodycare Pte Ltd	625 Aljunied Road 04-01 Aljunied Industrial Complex , , 389836 Singapore	DV-2013-MC-03437-1

ARTG Standard Conditions

The above Medical Device Included Class IIa has been entered on the Register subject to the following conditions:

No conditions have been recorded against this entry.

Products Covered by This Entry

1. Vertical vibration exerciser, stationary

Product Specific Conditions

No specific conditions have been recorded against this entry.
